Summary

Goal-oriented full stack developer with experience in developing and deploying web applications.. Proficient in programming languages such as Python, JavaScript with strong problem-solving skills and ability to work independently or as part of a team.

Experience(2 years)

Zelhus Consultants, New Delhi — *FullStack Developer*

June 2022 – PRESENT

1. Added what's app button functionality to an old BOT using Python script. Maintained and monitored BOT AWS EC2 servers, AWS FARGATE by problem solving in backend when servers are down.
2. Created many API services using DRF, including Google login with JWT. Integrated Google Calendar and Direction APIs. Deployed API services to AWS EC2 server in Docker containers along with user friendly UI .
3. Creating zoom meetings using zoom official API in NodeJS AWS serverless application and integrating in frontend ReactJS.

HiTalent, Remote — *Intern*

Nov 2021 - May 2022 (7 months)

1. Started as a Intern where I have enhanced Python, Javascript skills by learning Django, ReactJs and contributed in building HiTalent's website prototype.

Education

Sri Venkateswara University, Tirupati

June 2017 – December 2021

Completed Bachelor of Technology degree in Electronics and Communication Engineering.

Frontend -ReactJs, TailwindCSS, NextJs

Bot Development - Rasa

Version Control System - Git

CI/CD - Git actions workflow

Containers - Docker, Docker compose

Profiles

1. Github : https://github.com/s-iliyas
2. LinkedIn: https://www.linkedin.com/in/s-iliyas/

Hobbies

Contributing in open source, Web surfing, Listening music

Languages

English – Fluent
Hindi   – Bilingual
Telugu   – Native
Arabic   – Read&Write

Projects

HiTalent – hitalent.in

    a. Created a website for HiTalent and it is a platform to monitor the progress of people who are in training programs using ExpressJS and ReactJS(TailwindCSS).

    b. Fetch data from FreeCodeCamp. LinkedIn and Google Login with JWT.User management with PostgreSQL and Sequelize ORM library.

Bookmarks Manager – bookmarksmanager.app

    a. A simple tool for saving and sharing bookmarks and sessions with access control.

    b. NodeJS, ReactJs, PostgreSQL, AWS EC2, Docker

Portfolio ChatBot – iliyas.vercel.app

    a. Trained an AI chatbot for my portfolio using Rasa Open Source Framework and integrated with my portfolio.

Study Room

    a. Built using Django (both backend and frontend), here on users login , they get to create a room based on a certain topic and can discuss it.

Others..

    a. Fetching calendar events using Google Calendar API(Python script), Crypto Data fetching API(DRF)

    b. Public and Private key generation(Python Script)

    c. Pizza Order (DRF)

    d. Task manager(NodeJS and in DRF)

    e. URL shortener(Django)
